Wine..

*..This sublime nectar is
quite simply incapable of lying.
Picked too early, picked too late,
it matters not,
the wine will always whisper
into your mouth
with complete, unabashed honesty
every time you take a sip.
(Cit. "A Good Year")*

Collection:

Dom Pérignon

Dom Pérignon is a vibrant, living, perpetually renewed homage that evokes Dom Pierre Pérignon, the spiritual father of champagne. The maturation of Dom Pérignon occurs not in a simple linear trajectory, but in successive leaps into new expression, each of which are called Plénitudes. In the long journey of elaboration, the wine goes through this metamorphosis, a transformation. Each Plénitude contributes to Dom Pérignon's singularity. In the darkness of the cellars, from one plénitude to the next, Dom Pérignon will grow and blossom, transmuting time into energy. Magnum bottles bring a spectacular twist to your party, and are perfect for sharing amongst a group of friends.

Collection:

The House of Krug illustrates the amazing adventure of a visionary, Joseph Krug, a determined man with an uncompromising philosophy, who understood that the essence of Champagne is pleasure itself.

He wanted to offer his clients the ultimate pleasure experience in Champagne every year, regardless of the annual changes in climate, Krug is the only House to offer five Prestige Cuvees that are all different, while all being of equal, undisputed quality and distinction.

Each Cuvee conveys a particular interpretation of excellence, offering an inimitable experience the moment it is tasted, overwhelming the senses with exceptional pleasure.

“I like to think about what was going on the year the grapes were growing; how the sun was shining; if it rained. I like to think about all the people who tended and picked the grapes. And if it's an old wine, how many of them must be dead by now. I like how wine continues to evolve, like if I opened a bottle of wine today it would taste different than if I'd opened it on any other day, because a bottle of wine is actually alive. And it's constantly evolving and gaining complexity. That is, until it peaks, like your '61. And then it begins its steady, inevitable decline.”
